KEYSTONE AI PROTOCOLS // TIER 01 ($49.50 USD) FOUNDATION • PDF-02

# PDF-02: Locking In Your AI Memory with AGENTS.md

**Foundation Step 2: Teaching Your AI Your Brand Voice, Audience & Guardrails Once and For All**

### 1. HOW 01_Brain_Rules/AGENTS.md LOCKS IN PERMANENT MEMORY

Think of **01_Brain_Rules/AGENTS.md** as the master architectural blueprint pinned to the wall of your job-site office. Every time you open your workspace in Google Antigravity, your AI reads **AGENTS.md** automatically. You define your brand, audience, and ~20-word video rules once, and your AI applies them across every single session.

## 2. FILL-IN-THE-BLANK TEMPLATE FOR 01_Brain_Rules/AGENTS.md

Open **My_AI_Brain/01_Brain_Rules/AGENTS.md** and replace the bracketed sections with your custom business details:

**FILE: 01_Brain_Rules/AGENTS.md (CUSTOMIZE THESE 4 SECTIONS)**

```
# AGENTS.md — Master Brand Voice & Operating Rules
## 1. Identity & Positioning
- Presenter / Founder: [Your Name] (e.g. John Doe, Founder & Systems Architect)
- Channel / Company: [Your Channel Name] • Primary URL: [https://yourwebsite.com]
- Core Audience: [Who you teach / service] • Tone: Pragmatic, first-person builder authority
## 2. Inviolable Video Pacing Rules
- Rule 1 (~20-Word Rule): Every 10-second Google Flow scene MUST use strictly 18 to 24 spoken words (~20 words)
so voiceover delivers smoothly in ~8.8s without clipping.
- Rule 2 (3-Chip Reference Invariant): Every scene prompt must reference:
  With reference to me avatar, wearing cloth_1 with background background_1, [Action]
- Rule 3 (Folder Hygiene): Save video scripts in 02_Video_Prompts/ and blog HTML in 03_Website_Builder/.
```

## 3. MEMORY VERIFICATION TEST PROMPT (RUN IN ANTIGRAVITY)

**VERIFICATION PROMPT:**

```
Read my 01_Brain_Rules/AGENTS.md file and summarize my brand identity, target audience, and exact Google Flow
word-count pacing rule in 3 short bullet points.
```

**Next Step (→ Open PDF-03):** Once Antigravity affirms your brand rules, open **PDF-03** to generate and export your first 10-second MP4 video clip in Google Flow!
