Tier 02 Step 3: Dedicated Researcher, Writer, QA Auditor & B2B Outreach Specialist Roles (Page 1/2)

1. WHY SPECIALIZED AGENT ROLES BEAT GENERALIST PROMPTING

Asking a single AI prompt to research, write, format code, and check facts at the same time causes context clutter and hallucinations. In **Tier 02**, we divide the work across **4 Specialized Agent Roles** inside Google Antigravity: Fact Scout, Script Writer, Code/Pacing Auditor, and B2B Outreach Specialist.

2. MULTI-AGENT SWARM VERIFICATION ARCHITECTURE

Role 1: 3-Source Fact Scout
Queries official specs & documentation. Rejects generic SEO fluff with >=3 primary citations.

Role 2: Master Script Writer
Converts research into 18-24w 10s Google Flow scenes and 1,200-word Gutenberg articles.

Role 3: QA & Code Auditor
Audits audio pacing (18-24w), #04070d design tokens, responsive tables, and JSON-LD schema.

Role 4: Outreach Closer
Performs DNS/MX verification and drafts locked-logo HTML emails for high-ticket clients.

PDF-08: B2B DNS/MX Lead Verification & Outreach

Tier 02 Step 4: High-Deliverability B2B Lead Verification, Locked-Logo HTML Emails & CRM Tracking

1. THE INVIOLABLE DNS/MX LEAD VERIFICATION GATE

Blasting unverified email lists ruins your sender domain reputation. In **Tier 02**, our outreach workflow enforces a strict **DNS/MX Verification Gate**: every recipient domain must have valid Mail Exchange (MX) records, never targets generic desks (e.g. *info@* or *support@*), and pairs with a **Locked-Logo Dark-Luxury HTML Shell** that commands executive trust.

2. THE 4-STAGE B2B OUTREACH PROTOCOL

Stage 1: DNS/MX Pre-Check
Validates MX records via DNS lookup. Discards invalid domains before writing.

Stage 2: Named Decision Maker
Targets specific partners, founders, or department heads with personalized context.

Stage 3: Locked-Logo HTML
Obsidian (#04070d) card with header logo, 9999px gold pill CTA, and CASL footer.

Stage 4: Markdown CRM Tracking
Tracks Prospect, Company, Date, Follow-up Status, and Conversation Notes.

3. COPY-PASTE OUTREACH PROMPT (RUN IN ANTIGRAVITY)

```
PROMPT: BUILD MY LOCKED-LOGO HTML EMAIL & CRM TRACKER:
Act as my B2B Outreach Specialist. Read 01_Brain_Rules/AGENTS.md. Create two files in 05_Outreach_CRM/:

border) with top logo banner, personalized message slot, 9999px Gold Pill CTA button, and executive signature.
2. prospect_tracker.md: Clean table tracking Prospect Name, Company, Verified Email, Date, Status, and Notes.
