KEYSTONE AI PROTOCOLS // TIER 01 ($49.50 USD) FOUNDATION • PDF-01 • ▶ 4K Video: https://youtu.be/-ZYdbPXenCU

PDF-01: Setting Up Your 4-Folder AI Brain Workspace

Foundation Step 1: Organizing Google Antigravity So Your AI Never Forgets Your Brand (Page 1/2)

1. WHY A LOCAL AI BRAIN BEATS CHAOTIC CHAT WINDOWS

When building a custom home, you never leave blueprints scattered across the job site. Yet 95% of creators type random prompts into single chat threads that forget everything the moment the window closes. In **Tier 01**, we solve this by organizing a clean **4-Folder AI Brain Workspace** inside **Google Antigravity ($30/mo)** that remembers your voice, prompts, and assets permanently.

2. SYSTEM ARCHITECTURE DIAGRAM (OVERVIEW)

01_Brain_Rules/ > AGENTS.md
Stores brand voice, ~20-word video pacing rules, and 3-chip visual references.

02_Video_Prompts/
Stores 10-second scene prompts and visual B-roll descriptions for Google Flow.

03_Website_Builder/
Holds dark-luxury Gutenberg blocks (#04070d, #d4af37) and comparison tables.

04_YouTube_Channel/
Holds 480-character tag stacks, upload defaults, and Short-to-Long bridges.

→ **See Page 2** for the step-by-step initialization instructions and Copy-Paste Master Setup Prompts!

Wayne Stevenson • **Founder & AI Systems Architect** • **BC Housing Licensed Builder #52603**
Buyer Vault: https://keystonerecomposition.com/ai-protocols/#kr-self-service-portal • 4K Walkthrough: https://youtu.be/-ZYdbPXenCU
Tier 01 Foundation Package ($49.50 USD) • Includes 7-Day Guided Setup Window (Up to 3 Questions) • PDF-01

PDF-01: Setting Up Your 4-Folder AI Brain Workspace

Foundation Step 1: Organizing Google Antigravity So Your AI Never Forgets Your Brand (Page 2/2)

3. INITIALIZING YOUR WORKSPACE IN 5 MINUTES (STEP-BY-STEP)

1. **Step 1:** Create a folder named **My_AI_Brain** on your drive (e.g. *Documents/My_AI_Brain*).
2. **Step 2:** Open **Google Antigravity**, click **File → Open Folder**, and select *My_AI_Brain*.
3. **Step 3:** Copy **Setup Prompt #1** below and paste it into the Antigravity chat window.

COPY-PASTE SETUP PROMPT #1 (FOLDER SCAFFOLDING):

```
You are my Lead AI Systems Architect inside Google Antigravity. Verify or create my 4-folder AI Brain
workspace: 01_Brain_Rules, 02_Video_Prompts, 03_Website_Builder, and 04_YouTube_Channel. Always read
01_Brain_Rules/AGENTS.md at the start of every session so you remember my brand voice, target audience, and
~20-word Google Flow video prompt rules. Reply with a 3-bullet confirmation when ready.
```

4. BRAND VOICE & TOPIC CALENDAR INITIALIZATION

COPY-PASTE SETUP PROMPT #2 (INTERACTIVE BRAND VOICE INTERVIEW):

```
Read my starter files. Interview me with 5 simple questions about my company name, target audience, core offer,
website link, and preferred tone of voice. When I answer, write my complete profile into 01_Brain_Rules/
AGENTS.md and generate my first 10 video episode topics in 02_Video_Prompts/Topic_Roadmap.md.
```

Verification Check: Ask Antigravity: *"What are my 3 permanent rules from AGENTS.md?"* If it replies instantly with your rules, your AI Brain memory is officially locked in!

WATCH RECORDED 4K WALKTHROUGH & NEXT STEP (→ PDF-02)

Click the gold button below to watch the **Tier 01 4K Video Walkthrough (https://youtu.be/-ZYdbPXenCU)**, then open **PDF-02** to customize your permanent AGENTS.md rules!

Wayne Stevenson • Founder & AI Systems Architect • BC Housing Licensed Builder #52603

Tier 01 Foundation Package ($49.50 USD) • Includes 7-Day Guided Setup Window (Up to 3 Questions) • PDF-01

PDF-02: Locking In Your AI Memory with AGENTS.md

Foundation Step 2: Teaching Your AI Your Brand Voice, Audience & Guardrails Once and For All (Page 1/2)

1. HOW 01_Brain_Rules/AGENTS.md LOCKS IN PERMANENT MEMORY

Think of **01_Brain_Rules/AGENTS.md** as the master architectural specification pinned to the wall of your job-site office. Every time you open your workspace in Google Antigravity, your AI reads **AGENTS.md** automatically before answering. You define your brand voice, audience, offer links, and ~20-word video pacing rules once, and your AI enforces them across every session.

2. MASTER FILL-IN-THE-BLANK TEMPLATE FOR 01_Brain_Rules/AGENTS.md

Open **My_AI_Brain/01_Brain_Rules/AGENTS.md** and customize these 4 core blocks for your business:

FILE: 01_Brain_Rules/AGENTS.md (BLOCKS 1 TO 4)

```
# AGENTS.md — Master Brand Voice & Operating Rules
## 1. Identity & Positioning
- Presenter / Founder: [Your Name] (e.g. Jane Doe, Founder & Lead Architect)
- Channel / Company: [Your Brand Name] • Primary Website: [https://yourwebsite.com]
- Core Offer / Funnel Link: [https://yourwebsite.com/offer]
- Core Audience: [Who you help & what problem you solve]
- Tone of Voice: Direct, pragmatic first-person authority ("I", "we", zero robotic filler)

## 2. Inviolable Google Flow Video Rules
- Rule 1 (~20-Word Pacing): Every 10-second Google Flow clip MUST contain strictly 18 to 24 spoken words (~20
words) so the voiceover finishes at ~8.8s with zero audio cutoff.
- Rule 2 (3-Chip Continuity): Every video prompt must attach Avatar (Me), Outfit (cloth_1), and Room
(background_1).
- Rule 3 (Single Name Intro): Introduce the founder's name only once in Clip 1; never repeat in Clips 2+.
```

Why First-Person Authority Matters
Viewers connect with real practitioners. Banning generic AI buzzwords ("delve", "tapestry", "unlock") keeps scripts authentic.

Automatic File Routing
Instructing AGENTS.md where to save outputs prevents desktop clutter and builds a searchable library.

→ See Page 2 for Brand Guardrails, Forbidden Phrase Lists, and Self-Updating Memory Prompts!

Wayne Stevenson • Founder & AI Systems Architect • BC Housing Licensed Builder #52603
Buyer Vault: https://keystonerecomposition.com/ai-protocols/#kr-self-service-portal • 4K Walkthrough: https://youtu.be/-ZYdbPXenCU
Tier 01 Foundation Package ($49.50 USD) • Includes 7-Day Guided Setup Window (Up to 3 Questions) • PDF-02

PDF-02: Locking In Your AI Memory with AGENTS.md

Foundation Step 2: Teaching Your AI Your Brand Voice, Audience & Guardrails Once and For All (Page 2/2)

3. ADDING BRAND GUARDRAILS & FORBIDDEN PHRASES (BLOCKS 5 & 6)

Add these two additional sections to your **AGENTS.md** file so your AI never uses off-brand language or broken links:

APPEND TO 01_Brain_Rules/AGENTS.md:

```
## 3. Website & Visual Design Tokens
- Primary Background: Obsidian #04070d • Accent 1: Sovereign Gold #d4af37 • Accent 2: Baby Blue #38bdf8
- Card Radius: 18px glassmorphic containers • Button Radius: 9999px pill buttons

## 4. Forbidden Words & Compliance Guardrails
- Never use cliché AI filler words ("In today's fast-paced digital landscape", "game-changer", "delve").
- Always spell out numbers and symbols inside spoken video quotes ("forty nine dollars" instead of "$49").
- Always verify that every call-to-action link points to our exact live URL before saving any draft.
```

4. SELF-LEARNING MEMORY UPDATE PROMPT (TEACH YOUR BRAIN NEW LESSONS)

COPY-PASTE PROMPT (RUN WHENEVER YOU WANT TO LOCK IN A NEW RULE):

```
Read 01_Brain_Rules/AGENTS.md. Append a new permanent rule under Section 2: "[INSERT YOUR NEW PREFERENCE OR LESSON]". Confirm the exact lines added and apply this rule to all future scripts and pages.
```

3-Point Memory Audit Checklist:

- **Check 1:** Is *AGENTS.md* saved inside *My_AI_Brain/01_Brain_Rules/AGENTS.md*?
- **Check 2:** Did you replace all bracketed placeholders *[...]* with your actual company name and URLs?
- **Check 3:** Did Antigravity confirm your 3 rules when asked in a fresh chat thread?

NEXT STEP → OPEN PDF-03 (GOOGLE FLOW 10-SECOND VIDEO GUIDE)

Now that your AI Brain knows your voice, open **PDF-03** to pair your 3 reference photos with ~20-word Google Flow video prompts!

Wayne Stevenson • Founder & AI Systems Architect • BC Housing Licensed Builder #52603
Buyer Vault: https://keystonerecomposition.com/ai-protocols/#kr-self-service-portal • 4K Walkthrough: https://youtu.be/-ZYdbPXenCU
Tier 01 Foundation Package ($49.50 USD) • Includes 7-Day Guided Setup Window (Up to 3 Questions) • PDF-02

PDF-03: Google Flow 10-Second Video Walkthrough

Foundation Step 3: Pairing 3 Reference Photos with ~20-Word Scene Prompts & Exporting 1080p MP4s (Page 1/2)

1. THE 3-CHIP + ~20-WORD FORMULA FOR GOOGLE FLOW (labs.google/fx/tools/flow)

Creators struggle with two roadblocks in Google Flow: (1) character outfits and studio rooms change randomly between clips, and (2) long spoken lines get cut off at the 10-second mark. Our formula solves both: attach **3 Reference Photos** on every prompt for visual continuity, and keep dialogue strictly between **18 and 24 spoken words (~20 words)**.

2. PREPARING YOUR 3 VISUAL REFERENCE CHIPS

CHIP 1 // Avatar (Me)
Clear, eye-level chest-up headshot with neutral expression and even key light.

CHIP 2 // Wardrobe (cloth_1)
Flat-lay photo of your signature long-sleeve blazer, sweater, or jacket. Zero big logos.

CHIP 3 // Studio (background_1)
16:9 wide shot of your office or studio room with strictly zero people in frame.

3. WHY ~20 SPOKEN WORDS (18–24 WORDS) IS THE GOLDEN PACING RULE

0.0s – 0.5s // Settle In
Avatar settles naturally into frame and takes an initial breath before speaking.

0.5s – 8.8s // 18–24 Words
At ~2.4 words/sec, 20 words finish cleanly at ~8.8s with natural cadence and emphasis.

8.8s – 10.0s // Clean Tail
1.2-second buffer ensures zero mid-syllable truncation and smooth cuts in editing.

→ See Page 2 for the Step-by-Step Google Flow Generation Workflow, Prompt Generator, and Export Guide!

Wayne Stevenson • Founder & AI Systems Architect • BC Housing Licensed Builder #52603
Buyer Vault: https://keystonerecomposition.com/ai-protocols/#kr-self-service-portal • 4K Walkthrough: https://youtu.be/-ZYdbPXenCU
Tier 01 Foundation Package ($49.50 USD) • Includes 7-Day Guided Setup Window (Up to 3 Questions) • PDF-03

PDF-03: Google Flow 10-Second Video Walkthrough

Foundation Step 3: Pairing 3 Reference Photos with ~20-Word Scene Prompts & Exporting 1080p MP4s (Page 2/2)

4. GENERATE & EXPORT YOUR 10-SECOND CLIP (STEP-BY-STEP)

1. **Step 1:** Paste **Master Prompt #2** below into Antigravity to generate your sequential 10-second scene prompts.
2. **Step 2:** Open **Google Flow** (*https://labs.google/fx/tools/flow*), select **Video (16:9 Landscape, 10s)**, and attach your 3 reference chips (**Me**, **cloth_1**, **background_1**).
3. **Step 3:** Paste Scene 1 into the prompt box and click **Generate**. Listen to verify clean audio completion at ~8.8s.
4. **Step 4:** Click **Download MP4 (1080p)** and save as *Clip_01.mp4*, *Clip_02.mp4*, etc.

COPY-PASTE MASTER PROMPT #2 (~20-WORD SCENE GENERATOR):

```
Using my rules in 01_Brain_Rules/AGENTS.md, write 5 sequential 10-second Google Flow scene prompts about [INSERT TOPIC]. Keep each spoken dialogue strictly between 18 and 24 plain words (~20 words), spell out all numbers, and format each clip on a single line:
Presenter says: "[18-24 spoken words]" Camera: With reference to me avatar, wearing cloth_1 with background background_1, [35mm cinema framing & natural two-handed gesture]
```

5. JOINING MULTIPLE 10-SECOND CLIPS INTO A FULL EPISODE

• **numbering convention:** Name exported clips sequentially (*01_Hook.mp4*, *02_Problem.mp4*, *03_Architecture.mp4*) so they drop straight onto any timeline (DaVinci Resolve, CapCut, Premiere) in exact chronological order.
• **2-Frame Crossfade Trick:** Add a subtle 2-frame audio fade at each clip boundary and lay a background music bed at **-22 dB** underneath for broadcast-grade continuity.

NEXT STEP → OPEN PDF-04 (15 SCENE TEMPLATES & 7-DAY SETUP SUPPORT)
Open **PDF-04** for ready-to-paste scene templates, B-roll prompt formulas, and your 7-Day Guided Setup Support instructions!

Wayne Stevenson • Founder & AI Systems Architect • BC Housing Licensed Builder #52603
Buyer Vault: https://keystonerecomposition.com/ai-protocols/#kr-self-service-portal • 4K Walkthrough: https://youtu.be/-ZYdbPXenCU
Tier 01 Foundation Package ($49.50 USD) • Includes 7-Day Guided Setup Window (Up to 3 Questions) • PDF-03

PDF-04: Scene Prompt Templates & 7-Day Setup Support

Foundation Step 4: Plug-and-Play ~20-Word Prompts, B-Roll Formulas, Troubleshooting & Q&A (Page 1/2)

1. PLUG-AND-PLAY 10-SECOND AVATAR SCENE TEMPLATES (STRICTLY 18–24 WORDS)

Attach your 3 reference chips (**Me**, **cloth_1**, **background_1**) in Google Flow and paste any of these proven scene structures:

[Scene 1 — Pattern-Interrupt Hook (20 words)]:
Presenter says: "Most people struggle with artificial intelligence because disorganized chat windows lose track of your business rules every single time." Camera: With reference to me avatar, wearing cloth_1 with background background_1, medium close-up speaking warmly to lens, 35mm anamorphic push-in.

[Scene 2 — The 4-Folder Solution (20 words)]:
Presenter says: "Instead of starting from scratch each morning, our workspace organizes your rules, scripts, notes, and exports into four permanent folders." Camera: With reference to me avatar, wearing cloth_1 with background background_1, grounded two-handed builder framing gesture in studio.

[Scene 3 — The ~20-Word Pacing Proof (20 words)]:
Presenter says: "Keeping each ten second script around twenty words allows the voice to finish smoothly with a natural breath before cutting." Camera: With reference to me avatar, wearing cloth_1 with background background_1, calm authoritative builder nod with slow tracking.

[Scene 4 — Visual Continuity Proof (21 words)]:
Presenter says: "By locking in three reference photos for your face, wardrobe, and studio room, every clip matches across the entire video." Camera: With reference to me avatar, wearing cloth_1 with background background_1, gesturing toward studio monitor with confident posture.

[Scene 5 — Direct Call to Action (20 words)]:
Presenter says: "Start with this clean four folder foundation, subscribe to the channel, and visit our website for the complete blueprint." Camera: With reference to me avatar, wearing cloth_1 with background background_1, welcoming open-palm gesture beside drafting table.

2. CINEMATIC B-ROLL PROMPT TEMPLATES (ZERO AVATAR CHIPS NEEDED)

[B-Roll A1 — Architectural Blueprint Table]: Cinematic 35mm macro dolly shot across a dark walnut architectural drafting table with glowing cyan wireframe schematics and brushed gold calipers, shallow depth of field, volumetric studio lighting.
[B-Roll A2 — Sovereign Workstation]: Slow tracking shot of an obsidian dual-monitor engineering workstation displaying clean 4-folder code hierarchy and timeline waveforms, warm tungsten rim light.

Wayne Stevenson • Founder & AI Systems Architect • BC Housing Licensed Builder #52603

Tier 01 Foundation Package ($49.50 USD) • Includes 7-Day Guided Setup Window (Up to 3 Questions) • PDF-04

PDF-04: Scene Prompt Templates & 7-Day Setup Support

Foundation Step 4: Plug-and-Play ~20-Word Prompts, B-Roll Formulas, Troubleshooting & Q&A (Page 2/2)

3. RAPID TROUBLESHOOTING MATRIX

Symptom / Issue	Exact Fix (100% Verified)
Audio cuts off at 9.9s	Trim 2–3 words so your spoken quote sits strictly between **18 and 22 words**, and spell out numbers ("twenty" instead of "20").
Outfit or room changes	Verify all 3 reference chips (**Me**, **cloth_1**, **background_1**) are attached in the prompt bar before clicking Generate.
Garbled text on screen	Never ask video models to render tiny multi-word paragraphs inside 3D graphics; request clean geometric icons and wireframes instead.
AI forgets brand rules	Ensure you opened the root **My_AI_Brain** folder via **File → Open Folder** inside Google Antigravity.

4. HOW TO USE YOUR 7-DAY GUIDED SETUP WINDOW (UP TO 3 QUESTIONS)

DIRECT SUPPORT & TIER 02 / TIER 03 UPGRADE PATH

• **Submit Setup Questions:** Visit your Buyer Setup Portal (https://keystonerecomposition.com/ai-protocols/#kr-self-service-portal) or reply directly to your Welcome Email with up to **3 setup questions** within 7 days.
• **Watch Your Recorded 4K Masterclass:** https://youtu.be/-ZYdbPXenCU
• **Ready for Next-Level Expansion?** Your 4-folder Brain plugs directly into **Tier 02 ($199)** to launch your Dark-Luxury Website, YouTube Brand Channel & 4-Agent Swarm, and **Tier 03 ($800)** compiles your workflows into a standalone **Windows .EXE Desktop Command Center**!
