PDF-06: YouTube Brand Channel Setup & Tag Stack

Tier 02 Step 2: 480-Char Comma Tags, Upload Defaults & Short-to-Long Related Video Bridge (Page 1/2)

1. SETTING UP YOUR YOUTUBE BRAND CHANNEL FOR AUTHORITY (studio.youtube.com)

YouTube is the world's second-largest search engine. By standardizing your **Brand Channel Upload Defaults**, **Altered Content Disclosures**, and **480-Character Comma Tag Stacks**, your masterclasses rank in both YouTube and Google Video search while driving high-intent viewers straight to your website.

2. YOUTUBE STUDIO 4-STEP CHANNEL CONFIGURATION CHECKLIST

1. Intermediate & Advanced Eligibility
In Settings → Channel → Feature Eligibility, complete phone verification to unlock custom 16:9 thumbnails, >15m videos, and clickable external links.

2. Permanent Upload Defaults
In Settings → Upload Defaults, pre-fill your website URL, lead magnet link, and social links so every upload includes your conversion funnel.

3. Altered / Synthetic Content Box
Under Details → Altered Content, select **"Yes"** whenever publishing realistic AI avatar scenes to remain 100% compliant with YouTube policy.

4. Playlists & End Screen Subscribe
Assign every video to a keyword-titled Series Playlist and attach a 20-second End Screen featuring "Best for Viewer" + Subscribe button.

3. ANATOMY OF A HIGH-CONVERTING YOUTUBE DESCRIPTION

- **Lines 1–2 (Above the Fold):** Primary SEO hook + your clickable website link (*https://yourwebsite.com*) so mobile and desktop viewers see your link before clicking "Show more".
- **Lines 3–10 (Executive Summary):** 250-word natural keyword breakdown of what the episode builds.
- **Chapter Timestamps:** Must begin with *00:00 Introduction* and include at least 4 chronological timestamps (minimum 10 seconds apart) to trigger Google Search Key Moments.
