PDF-08: B2B DNS/MX Lead Verification & Outreach

Tier 02 Step 4: High-Deliverability B2B Lead Verification, Locked-Logo HTML Emails & CRM Tracking (Page 1/2)

1. THE INVIOLABLE DNS/MX LEAD VERIFICATION GATE

Blasting unverified email lists ruins your sender domain reputation. In **Tier 02**, our outreach workflow enforces a strict **DNS/MX Verification Gate**: every recipient domain must have active Mail Exchange (MX) records, never targets generic catch-all desks (e.g. *info@* or *noreply@*), verifies exact target URLs, and pairs with a **Locked-Logo Dark-Luxury HTML Shell**.

2. THE 4-STAGE B2B OUTREACH PROTOCOL

Stage 1: DNS/MX Pre-Check
Validates MX records via DNS lookup. Discards invalid or parked domains before drafting.

Stage 2: Named Decision Maker
Targets specific partners, founders, or directors with bespoke context on their active projects.

Stage 3: Locked-Logo HTML
Obsidian (#04070d) card with header logo, verified target href links, and 9999px gold pill CTA.

Stage 4: Two-Way CRM Tracking
Logs Prospect, Company, Verified Email, Thread Status, and 3-Day Follow-up reminders.

3. COPY-PASTE OUTREACH PROMPT (RUN IN ANTIGRAVITY)

```
PROMPT #1: BUILD MY LOCKED-LOGO HTML EMAIL & CRM TRACKER:
Act as my B2B Outreach Specialist. Read 01_Brain_Rules/AGENTS.md. Create two files in 05_Outreach_CRM/:
1. locked_logo_email_template.html: A responsive dark-luxury HTML email (#04070d background, #d4af37 gold border) with top logo banner, personalized message slot, 9999px Gold Pill CTA button linking to my exact offer URL, and executive signature.
2. prospect_tracker.md: Clean table tracking Prospect Name, Company, Verified Email, MX Status, Date, and Next Step.
```

→ See Page 2 for DNS/MX Verification Commands, Link Hygiene Guardrails, and Multi-Turn Follow-Up Templates!

PDF-08: B2B DNS/MX Lead Verification & Outreach

Tier 02 Step 4: High-Deliverability B2B Lead Verification, Locked-Logo HTML Emails & CRM Tracking (Page 2/2)

4. INSTANT DNS/MX & LINK VERIFICATION GATE (ZERO BOUNCES OR BROKEN LINKS)

Before staging or sending any B2B or client email draft, have Antigravity run this 3-point verification check:

```
PROMPT #2: VERIFY MX RECORDS & AUDIT DRAFT LINKS BEFORE STAGING:
Before finalizing my outreach drafts in 05_Outreach_CRM/, run a 3-point verification gate:
1. Run `nslookup -type=mx <domain>` for every recipient email and reject any domain without live mail servers.
2. Verify every `<a href="...">` link inside the email body points to the exact target URL in AGENTS.md (zero placeholder or mismatched links).
3. Confirm the To: recipient address and Subject line are explicitly populated at the top of each draft card.
```

5. HIGH-RESPONSE 2-TOUCH FOLLOW-UP CADENCE

Day 1 // Value-First Intro
Reference a specific project or article by the prospect + share 1 concrete architectural resource link.

Day 4 // Case Study Bump
Reply in the same thread with a 2-sentence walkthrough link showing how the workflow operates live.

Same-Day Reply Closer
When a prospect replies, answer their exact question directly and offer a clear 1-click booking or checkout link.

NEXT STEP → OPEN PDF-09 (30-DAY OMNICHANNEL PUBLISHING BLUEPRINT)
Open **PDF-09** to tie your videos, website articles, Shorts, and outreach into a repeatable 30-day schedule!
